**Subject:** Concern with bathing in water with possible pesticide contamination? RE: Citizen of Juneau County, Wisconsin

Hi Debbie,

The citizen should contact the local health department for guidance since these are health-related concerns. I'm cc'ing Kim Harris to see if she has answered any of these types of inquiries.

Best wishes,  
Heather

ENFORCEMENT CONFIDENTIAL

Hi EPA Team:

I just received a call from one of the citizens that I had previously tested their water. The citizen called because the citizen was concerned about Wisconsin DATCP sampling results and asked if I could explain what the data means and if he should even be bathing in the water if it has these pesticide in it. I said that I would pass his information on to our person in Land and Chemical, who know about pesticides. I asked the citizen if he was receiving bottled water from AGC and the citizen said that he was advised by his attorney not to accept the offer.

Just thought I would keep you informed of what I am hearing.

Sincerely,

Cheryl Burdett
